## COURT HOLDS WOMAN MAY DYE HAIR IF SHE WANTS TO

LOUISVILLE, Ky., Sept. 14.—Dyeing the hair is as necessary to a society woman who wishes to enhance her beauty as soap and water to a poor girl, and in consequence a plea of infancy does not excuse her from payment of a debt made in having the color of her hair changed, according to an opinion of County Judge Blair Weisinger handed down in Quarterly Court today.

The opinion was delivered in the case of Mrs. Adrian C. Humphreys, a prominent young woman of Louisville, who must pay Mrs. Bush, a hairdresser, a bill of \$7.50 plus costs amounting to nearly that amount.

Mrs. Humphreys, who was not of legal age when her hair was dyed, entered a plea of infancy through her husband, a well-known attorney, when suit was brought by the hairdresser.

Judge Weisinger held that hair dyeing for a woman of high social standing is a necessity in the eyes of the law and consequently the contractor of the debt is liable.

The Apsey Rubber Company's works at Hudson, Mass., have gone on a full time schedule. The plant had been in operation seven hours daily since last week, when it was closed for the winter.

## 23,000,000 PUPILS IN U. S.

NEW YORK, Sept. 25.—The schools of the country are opening this month and with increased attendance, it is shown that the American thirst for education has kept ahead of the growth in population. This was said today by a manager of a teachers' agency. The last school census showed 23,000,000 enrolled in the various institutions of the country.

It is estimated that common schools alone now have at least 18,000,000 pupils.

At the teachers' agency it is said that the demand for more and better teachers is accompanied by increases in the cost of tuition. This is especially true of the private schools and more especially the boarding schools.
